The value of planted seed in the world has reached staggering proportions—an estimated US$55 billion annually. At the same time, the demands of biotechnology, communications, and intellectual property protection have created new challenges and opportunities.

Iowa State University’s College of Agriculture and Life Sciences and College of Business have teamed up to meet these needs with a program suitable for working professionals: an online Master of Science in Seed Technology and Business as well as graduate certificates in Seed Science and Technology and Seed Business Management.

**Program Features**

- Science, technology, and business courses with a focus on decision-making in the seed sector
- Flexible and convenient for working professionals: content available over the Internet and on CD-ROM
- Students remain part of an interactive group
- High-quality content delivered by engaged faculty

**Master’s Degree Features**

- 36-month study course—36 credits paced for working professionals
- Creative component project instead of thesis

**College of Agriculture and Life Sciences**

- Department of Agricultural and Biosystems Engineering
- Department of Agricultural Education and Studies
- Department of Agronomy
- Department of Economics
- Department of Entomology
- Department of Horticulture
- Department of Plant Pathology and Microbiology
- Global Programs
- Brenton Center for Agricultural Instruction and Technology Transfer

**College of Human Sciences**

- Center for Technology in Learning and Teaching
- School of Education

The Iowa State University Graduate Program in Seed Technology and Business is preparing a group of well-trained professionals to be managers with a passion for leadership and the skills for decision-making in the world’s seed sector.

Program Admissions

Whether seeking the Master of Science degree or a graduate certificate, you must complete the standard Iowa State University admission process. Please submit the following:

- Admissions application and fee
- Original transcripts to provide evidence of
  - A bachelor’s degree or higher in business or agriculture from an accredited institution (Other majors or areas of concentration will be considered.)
  - A GPA of at least 3.0 on a 4.0 scale, or approved equivalent
  - Official English translations of transcript may be required
- If English is not your native language, you will be required to submit evidence of English proficiency (TOEFL—IBT of 85 or better, IELTS—of 6.5 or better)
- Three letters of recommendation
- Personal essay
- Resume

GRE or GMAT standardized tests are not required, but may be submitted as evidence of potential success as a graduate student.

There is no residency requirement, and international students are encouraged to apply. Preference is given to candidates that apply before mid-March.

A Valuable Return for Your Investment

As a graduate of the Seed Technology and Business Program, you will be uniquely qualified and highly valued in the commercial seed industry, related public agencies, and affiliated non-profit organizations. Tuition and fee costs associated with earning the Master of Science in Seed Technology and Business are approximately US$33,000. Graduate certificate costs will be approximately US$15,000. Textbooks and other course supplies are not included in this estimate. There may be additional costs depending on individual circumstances. Reliable access to a computer and the Internet is also required.
